Spotlight

Program:

Welding

Current Employer:

Foundation Systems Supply

How was Erwin different from other schools?

The new technology and equipment along with the experience of the teachers in the applied fields are some of the main differences from other schools in the area.

How did Erwin prepare you for your career?

Erwin Tech supplied me with the knowledge and hands-on experience of the basic welding tools. It taught me what to look for and how to adjust in scenarios, but most importantly how to be and stay safe on the job.

What are some of your career highlights?

Since being hired on I was able to bring a classmate in to work beside me and I am now the lead welder at my job after a year and a half of working there. I'm also proud to say that the material and products I make are used and shipped across the United States.

What is one thing that future students should know about Erwin?

Between the faculty and staff at Erwin Tech they give you everything to start a great life journey if you apply yourself afterwards.

MICHAEL BARRETO
