

# ALUMNI

## Spotlight

**Program:**  
Welding

**Current Employer:**  
SS20 Building Systems, Inc.

**Why did you choose Erwin?**

Program, price, location. Glad I did. Erwin was the best education decision I ever made. I didn't know even half the reasons I should be there when I enrolled.

**How was Erwin different from other schools?**

I don't know anything about other schools. Erwin was fabulous, though. Erwin's welding program was incredible when I was there in 2011-2012.

**What are your career accomplishments?**

I have welded in many different applications in many places. I have owned and operated a successful welding business, I was a welding supervisor for a hydraulics contractor in the shipyards and phosphate mines, I am now a Project Manager for a structural steel fabricator and erector.

**What is one thing that future students should know about Erwin?**

Do it and give it your best. The doors will open.

**Andrew DeForest**
